  Apr 2016
  Erandathee Kalayathanaya, Kurunegala

Profile

I am a passionate and results-driven computer science student at SLIIT, specializing in AI and software development. With certifications from Meta, Google, and AWS, I have strong expertise in front-end and back-end development, digital electronics, and IT solutions. As the founder of GridX, I am dedicated to developing innovative POS systems, auto-attendance solutions, and e-commerce platforms. My technical skills, leadership experience, and problem-solving abilities make me a valuable asset in the tech industry.
